

World Ocean Day

On the 8th June every year since 1992, the United Nations has designated a special day marking the importance of the world's oceans.

They call it World Oceans Day.

Events marking it take place across the world and more than 100 countries take part in the celebrations.

In 2020, the event called for world leaders to commit to protecting 30% of our oceans by 2030 - in the **hope** that if that happens it will help combat climate change and protect marine biodiversity.

To support this, we are setting you an Art Competition Challenge.

Can you design a piece of Art Work – encouraging others to care for and protect our Oceans.

You can use colouring pencils, paint or collage. Try to be as creative and inspirational as you can, motivating others to **care for and protect our oceans**.

Entries to be returned to school by Friday 20th June

We will select a winner from each class.

Good Luck!
